Adobe Lightroom
Sketchup
AutoCAD
Microsoft Office

WORK EXPERIENCE

Senior User Experience Designer

EY Studio+ Bangalore | Nov 2022 - Present

Designed a product application for a renowned American retail company to help contractors track tasks and manage workflows efficiently. Led the end to end app experience from scratch, conducting primary user workshops, defining requirements, and building a scalable design system.

Contributed to multiple RFPs and strategic proposals under tight timelines, delivering high quality creative outputs and compelling design narratives that supported several project wins.

User Experience Designer

Designit, Wipro | Mar 2021 - Nov 2022

Worked on designing end-to-end digital and immersive experience for travellers which is fully automated at its core. It is also recognised by Wipro CEO as an exemplar of technical bids getting accentuated by awesome storytelling and aesthetic prowess.

Worked on a detailed research and design project to enable strong digital and physical engagement models for a Bangalore museum, with the aim of cementing it as a hub for arts and culture for Indians, globally.

User Experience Designer

Capgemini | Sep 2020 - Feb 2021

Worked on an international bank to design their internal UX validation and data testing tool.
